Sound Money League Discusses the Silver Movement.

NOT YET DEAD, BUT DYING

GOLD FORCES WILL CONTINUE TO SPEND MONEY.

J. Sterling Morton's Wing of the transfer from that ship ex-Secretary Republican Party Felicitates Itself Over the Election of a Gold Standard Congress-Reports From Colorado and Wyoming.

New York, March 28.-The central council of the National Sound Money League, consisting of the vice presidents of the league, met today in this city, re-elected the officers of the itzer, the nurse league, listened to reports of officers and exchanged views as to the vitality of the silver movement. The western men reported that the free coinage agimen reported that the free coinage agi-tation was declining, but by no means dead, and there was general concur-rence in the view of Secretary Gage, expressed in a letter, that "it will be wise for the sound money forces to hold themselves in line to oppose any fresh attack of the kind which was so successfully restricted in the fall of successfully resisted in the fall of 1896."

ome of the delegates pointed out Some of the delegates pointed out that though free silver had been defeated; the currency system had not been perfected. The work of the league will continue. J. Sterling Morton of Nebraska City presided. General Secretary E, V. Smalley was at once called upon for his report. It was in part as follows: part as follows:

In presenting to the governing body of this league my report on the opera-tions of the past year, I desire first to congratulate the members of the cen-tral council and of the executive committee on the very encouraging results that have been accomplished in com-bating the dangerous free silver delu-sion and in spreading sound ideas of national finance. The formidable movement for opening the mint to the movement for opening the mint to the free coinage of silver at the obsolete ratio of 16 to 1 with gold has been steadily declining since its defeat at the presidential election of 1896. The state elections of last fall showed enormous changes on this question in the states where the movement for lowering the money standard had been most active and successful.

"The states of Oregon, Washington, California, Wyoming, South Dakota, Nebraska and Kansas were captured by the sound money forces, and

by the sound money forces, and changes were effected in the political complexion of the legislatures of those and other states, which give the control of the United States senate for at least six years to come to the opponents of all forms of cheap money legislation and of all schemes for the regulation.

gold the standard money metal has produced a new discouragement that has resulted in fresh desertions from the silver ranks. Only a few politicians who committed themselves so fully to the cheap silver dollar delusion in 1896 that there is no line of retreat open to them now, insist upon the readoption of the Chicago platform by the national Democratic convention of 1900.

"The masses of voters who gave an enthusiastic support to the Chicago platform only three years ago now show no interest in the silver question, and only in the south is there at present any demand in the public press that it be revived as a leading issue in the next presidential campaign. The present indications are that if there is any mention of the free coinage of silvers.

M. E. Ingalls of Cincinnati said that he believed that the league ought to make its attitude understood throughout the United States. With a view to this, he offered a resolution pledging the league to favor the immediate adoption of legislation fixing 258-10 grains of gold as the standard dollar, the establishment of a separate bureau of issue and redemption in the treasury department in which should be held, not for current expenses of the government. current expenses of the government, a sufficient amount of gold to cover the redemption on demand of all obliga-tions of the government, the issue of all consider the proposed was then instructed to the second and improvements by using material and next most important venent recommended by the enisting completion of the reservoir is South and Thirteenth East. This reservoir, when completed of enlarging the excavation, lining on the excavation in the propriety of having all walks on that block brought to permatically and the propriety of having all walks on that block brought to permatically and the propriety of having all walks on that block brought to permatically and multiples of ten, and that all smaller notes should be required to redeem their notes in gold at their counters. This resolution aroused considerable discussion.

Congressman Fowler of New Jersey, proxy for John Kean of New Jersey, advocated the appoint of the propriety of having all walks on that block brought to permatically and the propriety of having all government paper in denomination of 310, and multiples of ten, and that all smaller notes should be required to redeem their notes in gold at their counters. This resolution aroused considerable discussion.

considerable discussion.

Congressman Fowler of New Jersey, proxy for John Kean of New Jersey, advocated the appointment by the chair of a committee to prepare a short, succinct declaration of the Isague and report thereon later. This was carried, and a committee of three, composed of Edward Atkins of Boston, E. H. Wells of North Dakota and A. R. Hepburn of New York, was appointed to report later.

WESTERN GOLDBUGS.

Mr. Rogers of Colorado and Senator Carey of Wyoming address-1 the dele-gation upon the conditions in their states. Mr. Rogers said that in Colostates. Mr. Rogers said that in Colorado the people are beginning to ask whether, after all, the gold standard is not better than the silver. Another phenomenon is the fact that the silver mines in the last two years have turned into gold mines. He believed that the time was not far distant when Colorado would abandon all forms of Populism and give up the 16 to 1 issue. He did not believe the change would be immediate.

diate.

Senator Carey, in speaking of the conditions in Wyoming, sold that in the coal mining camps and in his clate generally, there was a great interest in the money question. He snoke of his experiments in three coal districts, his efforts to explain the unancial situation and the excellent results. He helieved Wyoming was to be a gold state. The best place for good work, however, was in Colorado, for the influence of that commonwealth was wide in the far west.

west.

President J. S. Morton cadorsed the sentiments of the two previous speakers, but added that every species of discontent was found under the head of 16 to 1. He called attention to the great apposition to trusts, which all took ref-The office the committee of the whole committee of the whole connected for the committee of the whole connected for consideration.

THE OLD WAY

JOHN SHERMAN REACHES HOME Of Treating Dyspepsia and Indiges tion By Dieting a Dangerous and LANDED FROM THE CRUISER AT Useless One.

LANDED FROM THE CRUISER AT

OLD POINT.

We say the old way, but really it is a very common one at present time and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others or to greatly diminish the quantity usually taken, in other words, the starvation plan is by many supposed to be the first essential.

Newport News, Va., March 28.—The oruiser Chicago, which left Hampton Roads March 13 under orders to overtake the American liner Paris and transfer from that ship ex-Secretary

ance a course of dieting is at once advised.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a man sufficient form dyspepsia because indigestion itself starves every organ and every nerve and every fibre in the body.

What the dyspeptic wants is abundant nutrition, which means plenty of good, wholesome, well-cooked food and something to assist the weak stomach to digest it. This is exactly the purpose for Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst cases of dyspepsia, in other words the patient eats plenty of wholesome food and Stuart's Dyspepsia Tablets digest it for him. In this way the system is nourished and the overwarked terms of the control of the overwarked terms. of State John Sherman, who had been of State John Sherman, who had been taken seriously ill, arrived at Old Point shortly after the noon hour today with the distinguished invalid on board. The Chicago, after taking Mr. Sherman on board, sailed from Santiago last Friday morning, proceeding to this port. The parky that returned with the exterior on the Chicago was composed of his nephew, Frank Wiborg of Cincinnati, Dr. McGill of Duluth, the physician who had been in constant attendance upon the sick man, and Mrs. Danance upon the sick man, and Mrs. Dan-The ex-secretary's daughter, Mrs. Mc-Collum, watched the cruiser approach from the veranda of the Chamberlain from the veranda of the Chamberlain this way the system is nourished and hotel, preparations for the reception of the invalid at that resort having been made under her personal supervision.
